

Yingli Solar Modules

Yingli 80/85 watt module

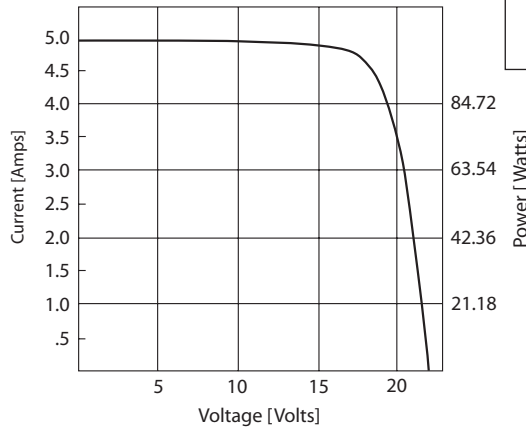

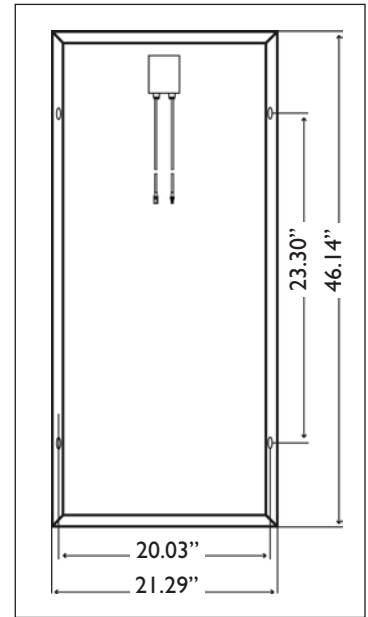

FEATURES:

- Factory tested to verify superior performance
- Heavy-duty corrosion resistant frame
- EVA encapsulation – enhances performance
- Tempered low-iron glass with anti-reflective coating for increased efficiency
- High-capacity junction box

Yingli solar modules use 36 high-efficiency polycrystalline silicon solar cells producing maximum power even under low light conditions.

EVA and TPT encapsulants create an environmental seal and the anti-reflective coating and high transmission glass increase power output and enhance the mechanical strength of the module. Anodized aluminum frame.

Multi-function junction box with water proof lid. 34.5” output cables with MC Connectors. All modules carry a 10-year, 90% output warranty and a 25-year, 80% output warranty. The YL85 is UL listed.

Model	Rated Power (Watts)	Rated Voltage (Vmp)	Rated Current (Imp)	Open Circuit (Voc)	Short Circuit (Isc)	Dims (Inches)	Unit Wgt (lbs)
YL80	80	17.5V	4.6A	22.0V	5.1A	46.1 x 21.3 x 1.3	17
YL85	85	17.5V	4.9A	22.0V	5.3A	46.1 x 21.3 x 1.3	17
